

# Speedy & Compact

A powerful compact that will enlighten your embroidery horizons.

Introducing, SAI a new model that incorporates the technological advancements of the leading embroidery machine manufacturer; TAJIMA, that are used by name brand manufacturers. It is a compact and a more affordable solution for new embroiderers.

**A workhorse that allows you to easily achieve professional results.**

-  Quality acceptable to an embroidery professional.
-  Production comparable to an industrial machine.
-  High quality precision parts provide a long life with low maintenance.

**The small design allows the SAI to be used in almost any environment.**

## Product-Designer Toshiyuki Kita

T. Kita

Began designing in Japan and Milano from 1969. Since then, Kita has designed many best-seller products from European and Japanese manufacturers world-wide. Such as furniture, home electronics, robots, commodities. Many of his works are selected for permanent collections in world famous museums such as The Museum of Modern Art in New York (MOMA), Centre Georges Pompidou (Paris), etc.

## High Performance

## Design editing software

### “TAJIMA Writer”

TAJIMA  
Writer

Software that easily allows text to be made or combined with preexisting designs.

With 8 colors you can create almost any design.

Small logos can be produced quickly.

\*The max speed for the cap frame is 700rpm.

## Lettering / monogram function

It allows you to readily make text or monograms by using the six standard fonts.
